

Omaha - October 1, 1985

File - 420

**HOLDERS OF UNION PACIFIC FREIGHT SCHEDULES  
AND TRAIN BLOCKING INSTRUCTIONS**

Enclosed is a complete update of Union Pacific Freight Schedules and Train Blocking Instructions dated October 10, 1985, which supersedes all previous instructions governing the schedule, makeup, and handling of through freight trains.

While these schedules do not constitute guaranteed service, every effort should be made to ensure that trains operate as indicated. Any changes in the day-to-day operation must be authorized by the Operation Center, Transportation Department, Omaha.

As changes are made to the planned operation of specific trains, this office will wire instructions to the appropriate Operating officers. Complete revisions of the Freight Schedules and Train Blocking Instructions will be issued periodically to ensure that all supervisory personnel involved in train makeup and scheduling are familiar with current instructions.

Any questions concerning the planned blocking and handling instructions should be directed to P. B. Waddington, Director--Blocking and Interroad Operations, Transportation Department, Omaha, Extension 4451.

J. R. FERNEY  
General Manager--Transportation
